

# BACKDRAFT

## ADVANCED TECHNOLOGY FOR FIRE FIGHTING

BACKDRAFT is the new high technology fire fighting goggle that is compact, high performance and comfortable. Fully sealed and able to withstand the most extreme conditions (heat and abrasion), BACKDRAFT provides safety and protection. With its double, high strength, fog resistant PLATINUM coating and its optional optical insert, BACKDRAFT is the latest innovation by Bollé Safety. Certified NFPA 1977-Wildland Fire Rescue and ANSI Z87.1-2010.

### PLATINUM

The new exclusive scratch and fog resistant coating guarantees even more safety, reliability and comfort. Washable, with water and soap, this permanent coating applied on both sides of the lens makes it highly scratch resistant and effectively delays the appearance of fogging.

### TECHNOLOGY

#### **CSP**

This innovative lens technology is an effective solution for all activities that alternate exposure to bright light and low light, while also being suitable for extreme hot and cold temperature environments. CSP is also combined with the exclusive PLATINUM coating that sustainably combats fogging.

### CLEANING AND STORAGE

**CLEANING:** The lenses should be cleaned regularly. Bollé Safety recommends only using the B-clean lens cleaning system.

**MAINTENANCE:** Pitted, scratched or damaged lenses must be replaced by replacing the complete product. If the frame is damaged also replace the complete product. After each use it is recommended to keep the spectacles or goggles in a microfiber pouch or rigid case.

**STORAGE:** All products must be stored in a dry and clean environment.

### PLATINUM

Bollé Safety revolutionizes eye protection with an innovation that meets all international standards. It guarantees more safety, reliability and a more comfortable fit. Washable \*\*, this permanent coating on both sides of the lens gives them a high scratch resistance and delays fogging longer than any other brand.

In every case, PLATINUM provides the maximum safety for eyes.
